I agree. I rescheduled the coordination call to this Thursday at 2pm if you didn't see that.

Thanks for your reply James. It will be good to coordinate all of our efforts. Please feel free to contact me before the 12/14 call if anything arises that Region 3 should know.

Best,

Andy

Subject: RE: Gen-X bi-weekly call agenda item

Thank you Andrew. This is an important step.

We learned today from Region 4 that there will be an increase in the number of private wells impacted above the North Carolina health goal based on the "Phase 2" round of sampling done by Chemours. I understand there will be a new expansion of the private well sampling to be performed by Chemours ("Phase 3") but the Region is seeking clarification on the strategy/distance/areas they will target this time.

Subject: Gen-X bi-weekly call agenda item

Hi James, I wanted to have the following agenda item placed on the agenda for the call for Thursday 12/14/17. I will not be able to participate on this call this Thursday. Please call me if you have any questions.

Sampling of groundwater for Gen-X in the vicinity of the Chemours Parkersburg Facility.

Ex. 5 Deliberative Process (DP), Ex. 7(A),

Thanks

Andy
